

**Love is a Nightmare**  
**By Sashenka Adikaram**  
**ACMF National Song Competition 2016**

Have you ever considered  
Looking straight into my eyes  
Have you ever considered  
Telling me all your lies

An arrow  
Through my heart  
Nobody  
Breaks us apart

Have you ever even wondered  
What lies beneath the truth  
Have you ever even thought-through  
All the things we used to do

Your eyes are  
Sown onto mine  
Heart-beating  
One at a time

Chorus:  
Cause' love is a nightmare for me  
Having crying all night long  
Keep getting fooled by your song]

Your face keeps getting closer to mine  
Can't break through this wall  
Can't stop taking your calls

Have you ever considered  
Pulling me against you  
Have you ever considered  
Telling me 'I love you'

Our heads are  
In the clouds  
Heaven is  
Pulling us off the ground

Chorus:  
Cause' love is a nightmare for me  
Having crying all night long  
Keep getting fooled by your song

Your face keeps getting closer to mine  
Can't break through this wall  
Can't stop taking your calls

The sky was the limit  
Now I'm pulling you down  
The sun rose above us  
Now the rain's pouring loud  
Did you do this to me  
Or is this all a dream

Chorus:

Cause' love is a nightmare for me  
Having crying all night long  
Keep getting fooled by your song

Your face keeps getting closer to mine  
Can't break through this wall  
Can't stop taking your calls
