

Cardboard Box
by Maxine Baker
ACMF National Songwriting Competition 2017

~Verse 1~

I've got to clean up my bedroom
Too many memories left of you
I've got to start sweeping the floors
Don't want your footprints no more

I'm going to move all the furniture
Don't want it looking like what you saw
I'm going to paint all the walls
Don't want to feel blue no more

~Chorus~

You, you're always gonna be around
And that's the truth
When I got up off the ground I saw that
You're just another, you're just another
Photo hanging on my wall
All that I'm gonna do is pack you up
And put you in a cardboard box

~Verse 2~

I'm going to clean you all up
Get rid of the mess, wipe away the dust
I'm going to take down the clock
Don't wanna waste any more time thinking 'bout what I
haven't got

~Chorus~

You, you're always gonna be around
And that's the truth
When I got up off the ground I saw that
You're just another, you're just another
Photo hanging on my wall
All that I'm gonna do is pack you up
And put you in a cardboard box

~Bridge~

And I could change all the windows and change all the walls
Change every floorboard on my floor
I could renovate this whole place
But the ghost of you won't ever go away...

~Chorus~

You, you're always gonna be around
And that's the truth
When I got up off the ground I saw that
You're just another, you're just another
Photo hanging on my wall
All that I'm gonna do is pack you up

All that I wanna do is pack you up
And put you in a cardboard box
