

SPIRITS

Do you know that your heart can be playing a part in the world?

Go believe in your path – all it takes is a start, it's a whirlwind

Reaching in, reaching out to a place where we all march on

Feeling dim, feeling down, but there's something to rise from

CHORUS

Bring our Spirits together

To keep them from wandering

The love in our lives, the lives that we love

Is all the Spirits

Hey, together,

The parts that we love

The parts that we run away from

Spirits, spirits

I know that you're stuck with emotions that you can't explain

It feels like you're one step from going insane

Giving in, giving up, it gets hard to stay above through it all

Like a sin, like a bug, it will try to destroy you, but no....

[CHORUS]

Don't cry 'cos it's over

Smile 'cos it happened

[CHORUS]
