

Keep Our Soul Alive by The Whipsnakes

V1:

A long time ago in the old old days

All our ancestors roamed this land

Down to the river and onto the plain

Through the mangroves to the coast

We've survived this long

We've survived this long

We'll keep going on and on and on

V2:

We are not forgetting you

We will carry on for you

Look after our family

Take what we need and leave the rest

We've survived this long

We've survived this long

We'll keep going on and on and on

CHORUS:

We will make you proud

Keep your soul alive

Dream of you in the night

We will carry on

With this beautiful song

V3:

I close my eyes look up to the skies

All I see is you

You gave us hope and strength and life

Now it is our time

We've survived this long

We've survived this long

We'll keep going on and on and on

CHORUS:

We will make you proud

Keep your soul alive

Dream of you in the night

We will carry on

With this beautiful song

With this beautiful song
