

## **Just You & Me**

**By Samantha Timcke and Joel Sweet**

A room full of people, nobody's listening  
I'm sure they won't hear us if we're whispering  
Oh, it's just you and me  
That's all it will be

I've broken my heart so many times  
But you come along and fix it in the blink of an eye  
And oh, the pain fades away  
It's faded away

You captivate, with every word I'm falling deeper  
Afraid I'm into far to make it out alive  
Don't hesitate, just ask the question  
Ask me your questions  
I swear this time I'll make it right

So just sing to the melody  
Don't you worry 'bout my harmony  
And oh, it's not taking long  
We're writing a song

Lost in a crowd, I'm falling apart  
I'm losing my faith in both of us from the start  
And oh, there's nothing to do  
There's nothing to say

I'm waiting for you to say I'm falling deeper  
I'm scared I'm in too far, am I gonna survive  
I'll hesitate, you have to help me  
Come over, help me  
I hope this time you'll make it right

So just sing to the melody  
Don't you worry 'bout my harmony  
And oh, it's not taking long  
We're writing a song

And I don't care if you're out of tune  
As long as you sing it loud and sing it true  
Oh, when will you see  
Nothing matters to me

I'm falling out of line  
I think it's time to change my mind

Sing to the melody  
Don't you worry 'bout my harmony  
And oh, we're writing a song

And I don't care if you're out of tune  
As long as you sing it loud and sing it true  
Oh, when will you see  
Nothing matters to me

And oh, it's not taken long  
We've written a song
