

# Fools

Holly Notarangelo

Let's keep this short.  
Next foot in front  
Covered Ears  
Pretend they don't talk

I'll waste all day  
Hiding away  
From every word  
That could come out of their mouths

**4:15 it's over  
But it seems no good at all...  
You said that it was better  
Whenever you don't have to talk**

**I've seen what you see  
Living your life behind a door  
They laugh anyway,  
So, we can play the Fools if we want**

I'm not salty  
I'm done holding  
Grudges over everything we  
Couldn't figure out

So, I won't try  
Changing your mind  
You can say what you want about me  
I've heard it all before

**4:15 still haven't done  
Anything at all  
You said that it was better  
Whenever you don't have to talk**

**I've seen what you see  
Living your life behind a door  
They laugh anyway,  
So, we can play the Fools if we want :P**

4:15 still haven't done anything at all...
