

# **BACK UP**

## **Lucy Parle**

There was a weight on  
My shoulder  
that I didn't know  
Till I let him go

And there's this feeling  
It's called breathing  
From below  
That I didn't know

### **PRE CHORUS**

And when he called  
I got a little anxious  
Coz when he spoke  
I was scared of what he'd say

And when he moved  
Away I didn't want him  
To come back  
Back, back, back  
Up

### **CHORUS**

My heart is no home for you anymore  
Pack your bags take them some place new  
My heart is no home for you anymore  
Back up, back up, back up

### **VERSE**

He was my lifeboat  
But I'm not drowning  
Anymore  
I found the shore

### **PRE CHORUS**

### **BRIDGE**

Is the end in sight?  
Am I close or far away?  
I'm losing energy

Check the directions  
Are we close or far away?  
I'm going insane  
I'm leaving you  
Don't try and stop me  
Don't make it harder please  
Please

## **CHORUS**

## **OUTRO**

Back up, back up, back up
