

Corona's Song

by ©Samantha Millin 2020 (Yr7 to 8)

Verse 1:

Hi my name's Corona, but some people call me COVID 19,
I'm not your average teenager, you may have seen me on your screen,
I have quite a reputation, but I am resilient and strong,
Come and sit next to me, I think we'll get along!

Chorus:

Doo doo doo doo, doo doo, doo doo,
People know me and they just shrug,
Doo doo doo doo, doo doo, doo doo,
It's okay, let's have a group hug!

Verse 2:

I have lots of friends on 'INSTA', like Paris, India and China,
America, Victoria too and cute old Carolina,
My personality's contagious, don't lock yourself away,
My favourite game's Hide and Seek come over and let's play!

Chorus:

Doo doo doo doo, doo doo, doo doo,
People don't even have a clue,
Doo doo doo doo, doo doo, doo doo,
They can't see me but ICU

Verse 3:

(voice getting angrier)

Some people say I am toxic, that I like to make a scene,
But they don't know what I'm capable of I'm COVID 19!

Quarantine - such a lonely scene,
Empty shelves all round,
And there's no toilet paper to be found
This is war now, open your door now,
Let me in, I'm going to win!!!!

Verse 4:

(switch back to happy, innocent voice)

I love to do community service, with excitement and glee,
I often visit Hospitals and Aged Care Facilities,
They practice social distancing and they have good hygiene,
Wait - why would you want to get rid of me with a new vaccine?

Chorus:

Doo doo doo doo, doo doo, doo doo,
You thought you beat me, but my curve ain't flat!
Doo doo doo doo, doo doo, doo doo,
You can't stop me, and that is that!
Doo doo doo doo, doo doo, doo doo,
You thought you beat me, but my curve ain't flat!
Doo doo doo doo, doo, doo

I'm just a girl wanting world domination!
