

## **Children of 2020**

*by Aoibhe Carty*

When you feel a little low  
And think there's nowhere to go  
Don't cast your eyes to the ground  
Lift your head and look around

There's a place deep in your heart  
Where music lies and there you'll make a start  
Let the rhythm flow to your feet  
Take that music to the street - the street, the street  
move your body to the beat - the beat, the beat  
Let your worries go  
about the things we can't control - no oh no  
Feel the spirit in your soul – your soul, soul

Turn that spark into a burning fire  
Let the music take you higher  
let the music take you higher  
Like a bird that flies on high  
Sing it to the sky  
Let your voice be free and bring it.

Sing it out. Sing it out. Sing it out, now loud Rosellas.  
We are the phoenix rising up from the ashes  
We got each other, we are one of many,  
We are the future, the children of 2020.

We are the ones, we are the sun shining brightly.  
We are the stars lighting up the skies at night we  
Cannot be broken, we are strong inside,  
Bright is the future, nothing can ever stop us

Higher,  
let the music take you higher.  
Like a bird that flies on high  
sing it to the sky  
Let your voice be free and bring it.

Sing it out. Sing it out. Sing it out, now loud Rosellas.  
We are the phoenix rising up from the ashes  
We got each other, we are one of many,  
We are the future, the children of 2020

We are the ones, we are the sun shining brightly.  
We are the stars lighting up the skies at night we  
Cannot be broken, we are strong inside,  
Bright is the future, nothing can ever stop us

Higher, let the music take you higher.  
Sky's the limit can't you see  
There's no worry we can't beat  
When the music flows just let it go.
