

Good Morning COVID

Taj Carver

Wake up in the morning
And I switch on my TV
There's a conference on
For all the world to see

He reads out some numbers
That tomorrow you'll forget
But he says
We're not like New South Wales yet

There was a time when I could leave my land
Good morning, COVID, good morning, Dan

Trying to step outside
For a thirty-minute walk
And I see a friend
But I can't stop and talk

I like online learning
But I'm hating the 5K
I feel like

I should escape some way

Will it be a lockdown or a ban?

Good morning, COVID, good morning, Dan

Have you ever reached the end

Where you've tried to pretend

That everything's alright

But you know it's not?

And by the time you turn eighteen

And you're off to university you know

That by then

The apartments will cost a lot

When will I get to see my aunty again?

Will it be a year or two

Or maybe ten?

Hating how this government

Can't roll out the vaccine

Oh, and yes, the milkshake ad

I have seen

I can't go now, but until I can

Good morning, COVID, good morning, Dan
